

SEATTLE OFFICER TELLS OF TROUBLE

Collins Was Nearly Down and Out—Gave Up Job—His Health Is Restored on Taking Tanlac.

"A medicine that will do as much for suffering people as Tanlac has for me is worth recommending," said John W. Collins, of 1214 East Columbia street, Seattle, Wash.

"When I began taking Tanlac," Mr. Collins continued, "I had trouble with my stomach, and was in such a awful condition that I could not patrol my beat. My food would sour and keep me filled with gas and I was miserable all the time. My whole body seemed full of neuralgia and rheumatism. I ached in every joint and the pain in my left side of my back, over my kidneys, was so terrible at times that I could hardly stand it. Nothing did me any good and finally I just had to give up my job."

"I tried everything, but never got any better until I started taking Tanlac. I used six bottles now, and have gotten rid of neuralgia and rheumatism entirely and never feel an ache or a pain. My appetite is great and I can eat anything without the least trouble afterward. I now sleep like a log and have gained twenty-five pounds and am in splendid condition in every way."

Tanlac is sold in Memphis by Warnock Drug Co. and W. S. Pharmacy, and the leading druggists in practically every city, town and village in America.

GOSSIPERS IN TEARS REACHING SHORE

Labor Leader Weeps as He Sets Foot Again on Soil of U. S.

NEW YORK, April 11.—Samuel Gompers, president of the American Federation of Labor, came ashore last night from the steamship Rotterdam, which brought him back from France with the other members of the American delegation to the International labor conference which framed a covenant to govern affairs of labor throughout the world.

The veteran leader had expected to spend the night aboard the ship, which he had just left in the morning, but came back on the cutter with immigration officials when informed by two of his sons that his wife was ill and that he should see her as soon as possible. They did not tell him that their mother had suffered a paralytic stroke several days ago.

When Mr. Gompers set foot in the darkness of the concrete of Battery pier he asked:

"Is this terra firma, or a bridge?"

When assured that it was the south end of Manhattan island he burst into tears, exclaiming:

"My own land."

Mr. Gompers was ill when he boarded the ship at Plymouth, but his health improved greatly during the voyage and he was able to make three patriotic addresses to the 2,238 troops and the 670 civilian officers on board. In his last talk he denounced vigorously the remarks through an interpreter by C. Zilburg, secretary of war in the Kerensky cabinet in Russia.

The labor leader declared the Russian had shown pronounced Bolshevik tendencies, and as a consequence the immigration authorities decided last night to hold Zilburg at Ellis island for further investigation.

Mr. Gompers refused to discuss his mission abroad, but said he might make a statement later. He said that on the way over the labor delegates had received by wireless an invitation to attend a luncheon to be given in their honor Saturday by the National City Federation. The invitation was accepted on condition that it did not interfere with other arrangements made for them.

Other members of the commission who came with Mr. Gompers are James Duncan, Frank Duffy, William Green and Maj. George L. Berry.

CENTENNIAL SOUVENIR TO BE HANDSOME BOOK

The handsomest souvenir booklet ever gotten up for the city celebration is being prepared under the direction of the souvenir and publicity committees of the Memphis and Shelby county centennial celebration, May 31 and 32.

The souvenir will be magazine size, 9x12 inches, on enameled paper, profusely illustrated and historical in both its art work and its stories.

Mrs. Annah Robinson Watson, author of the historical data compiled for the celebration, is writing the leading contribution to the souvenir, which has been given her title, "The Blossoming of the Century Plant."

The souvenir will be in blossom, with a colored plate of a century plant in full bloom on the front cover. The same design is to be run in tints as a background for the reading matter.

From an artistic standpoint the souvenir, the only souvenir booklet the celebration will put out, has met with general and unqualified approval. Cliff Blackburn, as chairman of the souvenir committee, declares it is the handsomest he has ever seen.

Typographical work will be under the direction of Miss E. N. Browning, a Memphis artist. The booklet will be edited by E. F. MacNeel.

MEMPHIAN SAYS YANKS KIND TO BOCHE WOMEN

Maj. Percy Perkins, a Memphis physician in the famous 42d (Rainbow) division of the American expeditionary force, is probably by now on the high seas homeward bound after some unique experiences, told in a letter received just after Maj. Perkins had left Germany. He said the boches were sorry to see the Americans leave, as contrary to their expectations, they fared better at the hands of the American boys than they did under Prussian rule. It was a matter of common remark that the Americans' treatment of women in the occupied area is kinder and in every way more respectful than that of the Germans themselves, the letter said.

Belgium is already recovering greatly from the Hun devastation, Maj. Perkins wrote. Brussels is now a gay city than Paris. The letter was written after a visit to the famous field of the battle of Waterloo.

Maj. Perkins' sole regret was his inability to return again to the Argonne forest and locate the grave of Roy Trevelan, brother of Stanley Trevelan, who fell in the terrible fighting in that region. Efforts so far to locate the grave and even to find the site of the fallen soldier have failed.

On the arrival of his unit, the headquarters company, 17th sanitary train, Maj. Perkins will be sent to Camp Lee, Va., to be mustered out, from which place he will return to resume his medical practice in Memphis. Maj. Perkins received his promotion from a captainship while abroad. He enlisted in the national guard and saw service along the Mexican border before being sent overseas.

BOARD'S STATUS PUT UP TO WILSON DIRECT

WASHINGTON, April 11.—The decision which President Wilson will be asked to make in the prize-fixing dispute between the industrial board of the department of commerce and the railroad administration will be whether the board shall go out of existence immediately or continue quiescent until the president returns and a final policy is determined.

Secretary Redfield, Assistant Secretary Sweet, Solicitor Thurman and Chairman Peck today drafted a telegram to the president, which will be put into final shape at another conference this afternoon. Until the president's decision the board will not undertake to continue its activities and no prices will be announced on lumber, brick, cement or other commodities under consideration.

GENERAL STRIKE AT ROME NOT SUCCESS

ROME, April 11.—The general strike of 24 hours called by the socialists for yesterday in memory of the victims of "red week" in Berlin and Russian Bolshevik premier, was not a complete success. Several stores refused to close their doors and the railroads worked normally. The street cars, omnibuses and cable and all means of urban transportation suspended operations.

The garrison was reinforced by troops from the provinces. Up to the present there have been no disorders. The undisturbed condition of the city perhaps was due somewhat to a heavy rain which fell.

In the Springtime

It's just at this time of the year that we need something taken from Nature to restore the vital forces.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long ago found herbs and roots provided by Nature to overcome constipation, and of these he selected Mayapple leaves of Aloe, root of Jalap, and from them made little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in our system and these are carried by the blood through your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a dose of castor oil, or something which is more pleasant, a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need—right now.

MEAT DEALER FINED; HOG'S HEAD THE CAUSE

Furnishing a customer with a hog's head that was said to be badly in need of embalming resulted in Julius Oppenheimer, meat dealer, 278 South Main street, being fined \$25 in police court Friday by Judge Fitzhugh on a charge of violating the pure food regulations.

Mrs. W. D. Young, 343 South Fourth street, was the complaining witness. She stated that her 12-year-old daughter was sent to the shop for the hog's head, and it was badly tainted and showed signs of visitation of flies. The little girl said she could hardly carry it for the odor, Oppenheimer said he had not smelled at it.

Mrs. Young said Oppenheimer refused to take it back and she carried it to the office of the board of health—well wrapped. There she was advised to procure a warrant and to kindly rewrap the hog's head as quickly as possible, there being no gas masks handy.
